

Minsterllation

In Minsterllation artist Amanda Drago and composer Kit Haigh bring the experience and feeling of being within the Sunderland Minster out into the grounds...

Fri 7th December to Thurs 20th December
(every evening from twilight onwards)

Free

Sights and sounds from this place of worship make up the work, featuring the 10 panels of their William Morris window and voices of the choir, specially recorded to capture the Minster's unique acoustic quality.

Walking through the projection the viewer's movements reveal the separate panels momentarily, whilst at the same time generating layered choral sounds. Careful and sensitive movement is rewarded with richer images and music.

Minsterllation is one of 4 commissioned works by Sunderland City Council as part of SHINE 07. Look out for other SHINE installations across Sunderland City Centre including 'Monolith 4', 'Motto' and the NOVAK film 'Shine your Design'.

For further information about SHINE go to www.sunderlandevents.com or call 0191 553 2000
